# ISHKS UPDATE

Newsletter of the Indian Society of Hip & Knee Surgeons

July 2026

## In this issue

- ❖ ISHKS Office Bearers.
- ❖ Presidents Message.
- ❖ Message from Managing Trustee.
- ❖ Secretary's Message.
- ❖ Invitation for the 20<sup>th</sup> ISHKS Annual Conference at Chennai.
- ❖ ISHKS 2026 Pune: A Landmark Annual Meeting.
- ❖ Indian Joint Registry (IJR) - April 2026 Update.
- ❖ Indian Journal of Hip & Knee Arthroplasty.

## ISHKS Office Bearers

**President**

Dr. Pradeep Bhosale

**1st Vice President**

Dr. Parag Sancheti

**2nd Vice President**

Dr. Leo Joseph

**3rd Vice President**

Dr. Rajesh Malhotra

**Secretary**

Dr. Dhanasekara Raja P

**Joint Secretary**

Dr. Jayesh Patil

**Treasurer**

Dr. Dimple Parekh

## ISHKS Committee Chairs

**Research Chair**

Dr. Ramneek Mahajan

Dr. Anil Oommen

**Registry Chair**

Dr. K.T. Rajshekhar

Dr. Mahesh Kulkarni

**Fellowship Chair**

Dr. Nilen Shah

Dr. Neeraj Adkar

**Education Chair**

Dr. Krishna Kiran

Dr. P Ashok

**Membership Chair**

Dr. Adarsh Reddy

Dr. B.D. Chatterjee

**Legal Chair**

Dr. Vijay Kumar

Dr. Narayan Hulse

## ISHKS Board of Trustees

Dr. Dipak Dave

Dr. Leo Joseph

Dr. Parag Sancheti

Dr. Sharan Patil

Dr. P. Suryanarayan

Dr. Vijay Bose

Dr. Arun Mullaji

Dr. H.P. Bhalodia

Dr. Rajesh Maniar

Dr. Vikram I. Shah

Dr. A V Gurava Reddy

Dr. S. V. Vaidya

Dr. Hemant Wakankar

## ISHKS Secretary General

Dr. Javahir A. Pachore

## Presidents Message

It is a great honour and privilege to write this Presidential Message for the newsletter of the Indian Society of Hip and Knee Surgeons (ISHKS). Over the years, years, ISHKS has evolved into one of the most dynamic arthroplasty associations in India, fully dedicated to academic excellence and the advancement of joint replacement surgery.

Founded in 2004 under the visionary leadership of our Bhishmapita, Dr. Javahir A Pachore, the Society began its journey with twenty-six eminent Indian arthroplasty surgeons who came together as founder members. Their collective vision and personal commitment established ISHKS as a truly academic, ethical, and professional body devoted to the field of arthroplasty. With the tireless efforts of Dr. Pachore and Dr. Vaidya, the Society was officially

**Prof. Pradeep B. Bhosale** registered, laying the foundation for its remarkable growth.

Since its inception, every member has worked relentlessly to strengthen ISHKS in line with the highest international standards. Our primary objective has always been to promote unbiased academic growth and advancement in arthroplasty, for the benefit of both our surgeons and, most importantly, our patients.

### The Indian Joint Registry (IJR)

One of our most significant achievements has been the initiation of the Indian Joint Registry (IJR). In collaboration with Northgate Public Services, custodians of the National Joint Registry of England, Wales, and Northern Ireland, we successfully completed the pilot phase of this landmark project. Many members have played an active role in this initiative, and we sincerely encourage all arthroplasty surgeons across the country to contribute confidential data to strengthen the IJR. The registry has already gained international recognition and has the potential to become a milestone in Indian arthroplasty.

### International Collaborations

ISHKS takes pride in its academic collaboration and co-branding with the American Association of Hip and Knee Surgeons (AAHKS). This partnership has enabled valuable academic exchanges during the annual meetings of both organisations. We are also in active discussions with other leading international arthroplasty societies to further strengthen global collaborations and enhance the international standing of Indian arthroplasty.

### Commitment to Academic Integrity

ISHKS continues to remain a purely academic organisation, free from any influence of the implant industry or vested personal interests. Our unwavering commitment is towards transparent, ethical, and evidence-based advancement in arthroplasty.

### The Indian Journal of Hip & Knee Arthroplasty.

Another milestone in our academic journey is the launch of the Indian Arthroplasty Journal, under the leadership of Dr. Murali Podwal as Chief Editor. The journal has been contributing meaningfully to academic development and the dissemination of research within the Indian arthroplasty community.

### Academic Meetings and Conferences

Our academic meetings and annual conferences have consistently upheld the highest standards, bringing together distinguished national and international experts in arthroplasty surgery. These forums continue to inspire learning, collaboration, innovation, and excellence. Our next annual meeting is scheduled for 9th to 11th April 2027 in Chennai, under the able leadership of Dr. Suryanarayan and Dr. Vijay Bose as Organising Secretaries.

ISHKS today stands as a truly Indian arthroplasty society of international standards, committed to advancing the knowledge and skill of surgeons while ensuring the best outcomes for patients. Together, we continue our journey towards progress, integrity, and excellence in the field of arthroplasty.

**Prof. Pradeep B. Bhosale**

**President,**

**Indian Society of Hip and Knee Surgeons (ISHKS).**

## Message from Managing Trustee

**Dr. Vikram Shah**

It gives me immense pleasure to witness the continued growth and academic strength of the Indian Society of Hip and Knee Surgeons as we move into another important year of our journey. What began as a vision to create a strong national platform for arthroplasty education, fellowship training, and research in India has today evolved into a globally respected academic society. It is extremely satisfying to see young Indian arthroplasty surgeons now receiving world-class training opportunities within our own country. One of the most significant initiatives of ISHKS remains the National Joint Registry, which represents the backbone of our future vision. Through collective participation and meaningful data contribution from centres across India, we aim to build a robust registry system comparable to leading international registries. The success of this initiative depends upon active involvement from every member and institution associated with ISHKS.

Our collaborations with international arthroplasty societies, including the American Association of Hip and Knee Surgeons, have further strengthened our academic and global presence. Today, ISHKS is increasingly recognized worldwide as a credible, progressive, and academically vibrant arthroplasty organization. As we continue to grow, I strongly encourage all members—particularly our young surgeons and fellows—to actively contribute to the ISHKS Journal and participate in multicentric research projects and registry-based studies. High-quality Indian data, scientific publications, and collaborative research will play a crucial role in shaping the future of arthroplasty, not only in India but globally. I sincerely thank all our members for their dedication, commitment, and support. I am confident that together we will continue to elevate the standards of arthroplasty education, research, innovation, and patient care in India.

Warm regards,

**Dr. Vikram Shah**

**Managing Trustee**

**Indian Society of Hip and Knee Surgeons**

## Secretary's Message

Dr. Dhanasekara Raja

### ISHKS Formal Secretary's Report: Progress, Academic Excellence, and Global Outreach

#### 1. Introduction

It is an honour to present this report to the members of the Indian Society of Hip and Knee Surgeons (ISHKS). It highlights our academic progress, collaborative initiatives, and growing international presence.

As a member of ISHKS since 2004 and a member of the Executive Committee for the past five years, I have witnessed our growth into a leading arthroplasty society. I remain committed to building on the strong foundation laid by my predecessors.

#### 2. Education and Academic Development

##### 2.1 FNB Teaching Programme

Our monthly online teaching programme, led by the Education Committee, provides high-quality education for FNB trainees, postgraduate students, and young consultants through expert lectures and interactive case discussions. Education chair Dr Krishna Kiran and Dr P S Ashok Kumar.

##### 2.2 ISHKS Fellowship Programme

The ISHKS Fellowship Programme provides structured training at centres of Life Members contributing to the Indian Joint Registry (IJR), promoting excellence in evidence-based arthroplasty. Fellows receive certificates at the Annual Congress.

##### 2.3 Fellowship Application Process

###### ❖ Primary Contact:

Direct all applications and formal enquiries to the Fellowship Chairs, **Dr Nilen Shah** or **Dr Neeraj Adkar**.

###### ❖ Administrative Support:

Further information regarding eligibility and deadlines can be obtained by contacting the **ISHKS Secretariat**.

#### 3. Flagship Academic Events: The Annual Conference

The Annual Conference is the highlight of our academic calendar. Collaboration with AAHKS has strengthened the scientific programme through joint sessions and international faculty participation.

The core themes of our recent congresses include:

- ❖ **Excellence in Patient Care:** Prioritising outcomes and safety in every surgical intervention.
- ❖ **Innovation:** Embracing advancements in surgical techniques, technology, and materials.
- ❖ **Global Partnerships:** Strengthening ties with international bodies to harmonise arthroplasty standards.

#### 4. Research, Publications, and the Indian Joint Registry (IJR)

##### 4.1 The Indian Joint Registry (IJR)

Under the leadership of Dr Pachore, the Indian Joint Registry (IJR) remains one of ISHKS's most important initiatives. It provides high-quality Indian data that supports evidence-based practice and research. The Indian Joint Registry mobile application was formally launched at the ISHKS 2026 annual meeting.

##### 4.2 The Journal of ISHKS

The Journal of ISHKS will be launched in 2026 as a biannual, peer-reviewed journal. Members are encouraged to contribute their research and help establish it as a leading platform for arthroplasty research.

##### 4.3 Collaborative Research Highlights

IJR data has contributed to international collaborative research, including a landmark study on global trends in patellar resurfacing.

##### 4.4 Formal Citation

1. Vaidya SV, Jogani AD, Pachore JA, Armstrong R, Vaidya CS. **India Joining the World of Hip and Knee Registries: Present Status-A Leap Forward.** Indian J Orthop. 2020 Sep 16;55(Suppl 1):46-55. doi: 10.1007/s43465-020-00251-y. PMID: 34122754; PMCID: PMC8149501.
2. The impact of this collaborative research is detailed in the following publication: Camryn S. Payne, David G. Deckey, Jens T. Verhey, Paul R. Van Schuyver, Joshua S. Bingham, Mark J. Spangehl, **Global Trends in Patellar Resurfacing From 2004 to 2022**, The Journal of Arthroplasty, Volume 40, Issue 2, 2025, Pages 367-372, ISSN 0883-5403, <https://doi.org/10.1016/j.arth.2024.08.033>.  
Data from **2004–2022** were collected from national joint registries in Sweden, New Zealand, Australia, the United States, Norway, the United Kingdom, the Netherlands, Switzerland, Canada, **and India**.

##### 4.5 Research Grants

The Research Committee continues to support member-led clinical research through competitive grants.

## 5. Membership Growth and Organisational Milestones

### 5.1 Statistical Overview

ISHKS continues to grow steadily through the dedicated efforts of its leadership.

| Membership Statistics             | Details                         |
|-----------------------------------|---------------------------------|
| <b>Total Membership</b>           | 1,378                           |
| <b>New Members (Current Year)</b> | 250 (including 10 Life Members) |

*\*Thanks to the effort of immediate past president Dr HCP Kincha for combining registration with membership*

### 5.2 Key Administrative Milestones during Dr Leo Joseph's Secretaryship (2013-2026)

Key achievements include membership growth, Life Member induction, unique membership IDs, digital certificates, and online membership services.

1. Enrolment of 884 new members during this reporting period. (Membership grew from 300 to 1378)
2. Induction of 73 Life Members into the society.
3. Formal assignment of unique membership identification numbers to all members.
4. Launch of physical membership identification cards to enhance professional identity.
5. Implementation of a streamlined online membership application process (2019).
6. Transition to digital membership certificates for all enrolments from 2015 onwards.
7. Initiation of communication with the AAHKS lead to the ISHKS being invited as a guest society to the 2016 meeting of the AAHKS in Dallas, and subsequent co-branding sessions with the AAHKS in all ISHKS meetings since then.
8. Regular online ISHKS teaching sessions were introduced.
9. Regular fellowship programs were conducted.

## 6. International Strategic Collaborations

ISHKS continues to strengthen collaborations with leading international arthroplasty societies.

- ❖ **American Association of Hip and Knee Surgeons (AAHKS):** ISHKS has proudly held Guest Society status since 2016, a partnership that continues to yield high-quality co-branded scientific programmes.
- ❖ **Italian Arthroplasty Society:** Our society recently participated as a Guest Society of the Italian Orthopaedic Association, further solidifying our academic links within Europe.
- ❖ **Australian Orthopaedic Association:** We were honoured to host the Australian Arthroplasty Association as the guest nation at the 2024 Annual Congress in Calcutta, marking a significant milestone in Indo-Australian surgical collaboration.
- ❖ **AAHKS:** AAHKS membership initiative, supported by its leadership present at the ISHKS conference, successfully enrolled over 30 new members from India, making India the largest contributor to AAHKS international membership.

## 7. Future Outlook and Formal Acknowledgements

### 7.1 Nurturing the Next Generation

Our priority is to develop the next generation of surgeons through education, fellowships, and research opportunities.

### 7.2 Acknowledgements

I sincerely thank the Trustees, Executive Committee, faculty, fellows, and all our members for their dedication and contributions to the continued success of ISHKS.

### 7.3 Formal Closing

ISHKS remains committed to professionalism, integrity, innovation, and academic excellence as we continue advancing hip and knee surgery.

#### ❖ Professionalism

#### ❖ Integrity

#### ❖ Innovation

#### ❖ Academic Excellence

Together, we will continue to advance the frontiers of hip and knee surgery.

With warm regards,

**Dr Dhanasekara Raja**

**Secretary,**

**Indian Society of Hip and Knee Surgeons (ISHKS)**

## Invitation for the 20<sup>th</sup> ISHKS Annual Conference at Chennai

Dear friends and colleagues,

It gives me immense pleasure to invite you all to Chennai for the ISHKS 2027 Annual Conference. We look forward to welcoming the arthroplasty fraternity to a vibrant academic gathering that will combine tradition, innovation, fellowship, and the unmistakable warmth of Chennai hospitality.

The theme of ISHKS 2027 will be focused on making learning more practical, interactive, and meaningful for every delegate. For the first time, we plan to introduce AI-mediated panel discussions, where expert opinions will be analysed, structured, and distilled into clear, practical take-home messages. The aim is to ensure that every discussion moves beyond debate and leaves the delegates with clarity that can be applied in day-to-day arthroplasty practice.

A major highlight of the conference will be the prominence given to the NEXGEN of arthroplasty surgeons in India. Young and upcoming surgeons represent the future of our specialty, and ISHKS 2027 will provide them with a strong platform to present their work, share their ideas, interact with masters, and participate actively in the academic programme.

As always, the scientific content will be rich and relevant. We plan to feature a host of live-in-box surgeries performed by masters of the craft, showcasing refined techniques, decision-making, tips, tricks, and solutions to difficult situations in hip and knee arthroplasty. These sessions will be designed to maximise learning while maintaining a strong focus on safety, reproducibility, and practical surgical wisdom.

Chennai has always been a city of knowledge, culture, Carnatic music, and hospitality. We hope to make ISHKS 2027 not only an academic feast but also a memorable experience filled with meaningful interactions, new friendships, and renewed inspiration.

On behalf of the organising team, I warmly invite you to join us in Chennai for what promises to be an exciting, futuristic, and highly interactive ISHKS Annual Conference.

With warm regards,

**Dr Vijay Bose & Dr Suryanarayanan**  
Organising Chairmen  
ISHKS 2027, Chennai

**Prof. Pradeep B. Bhosale**  
President ISHKS  
ISHKS 2027, Chennai.

**Dr P Suryanarayan**  
Organising Chairman  
ISHKS 2027, Chennai

**Dr Vijay Bose**  
Organising Chairman  
ISHKS 2027, Chennai.

## Highlights From ISHKS 2026 Pune: A Landmark Annual Meeting

The 19th Annual Meeting of the Indian Society of Hip and Knee Surgeons (ISHKS) was successfully held from 10th to 12th April 2026 at the JW Marriott Hotel, Pune. The meeting witnessed record participation, with more than 850 delegates attending, making it the largest ISHKS conference to date.

The conference commenced with several unique initiatives on Day One. The **Young Surgeons Forum** provided a dedicated platform for emerging arthroplasty surgeons from across India to showcase their work, exchange ideas, and engage with senior faculty. The enthusiasm and excitement generated by this forum exceeded expectations and reaffirmed the bright future of arthroplasty in the country.

Another significant milestone was the introduction of the **Women in Arthroplasty Session**, a first for ISHKS. The session received an overwhelming response and highlighted the growing contribution of women surgeons in the field. I would like to sincerely thank the ISHKS Trustees for their vision and support in encouraging this important initiative.

Recognising the invaluable contribution of our industry partners, a dedicated two-and-a-half-hour Industry Session was incorporated into the scientific programme. This was our way of acknowledging the unconditional support provided by our sponsors year after year, which plays a vital role in the success of our society and its activities.

Day Two focused on a more concentrated scientific programme. Rather than attempting to cover all aspects of primary arthroplasty, two focused themes each were selected for hip and knee replacement surgery. In primary hip arthroplasty, discussions centred around surgical approaches and femoral stem selection. For primary knee arthroplasty, the emphasis was on alignment philosophies and evolving polyethylene designs. These topics were chosen because of the increasing worldwide interest and ongoing developments in these areas.

One of the major highlights of the scientific programme was the combined ISHKS-AAHKS session, which focused on the rapidly evolving role of technology in joint replacement surgery. The session featured engaging discussions by distinguished national and international faculty and reflected the growing academic collaboration between the two societies. It was exceptionally well received and provided valuable insights into the future direction of arthroplasty practice.

The Presidential Oration by Dr. HPC Kincha was exceptionally well received by the audience and set the tone for a stimulating scientific day.

The conference was also honoured by the prestigious **Dr. K. T. Dholakia Memorial Lecture**, delivered by Prof. William Maloney. His lecture was concise, thought-provoking, and beautifully delivered, highlighting the principles that continue to guide excellence in hip and knee arthroplasty.

One of the highlights of the meeting was the extended session on Periprosthetic Joint Infection (PJI). The faculty delivered practical and evidence-based insights into prevention and management strategies. Prof. Javad Parvizi was outstanding in conveying key messages and sharing his vast experience in dealing with this challenging complication.

In a departure from the traditional scientific format, we were privileged to host Shri Gaur Gopal Das for a special non-academic session. His captivating address on personal growth, resilience, and coping strategies in today's stressful professional environment resonated deeply with

Day Three was dedicated primarily to revision arthroplasty. Revision hip sessions focused on the management of hip instability, dislocation, and periprosthetic fractures. Revision knee discussions centred on levels of implant constraint and contemporary strategies for managing bone loss. These sessions generated lively debate and extensive audience participation.

Another landmark achievement during the conference was the launch of the **Indian Joint Registry mobile application**. The app has been developed to simplify data entry, improve accessibility, and encourage wider participation among surgeons, thereby strengthening the registry and its future impact on patient care. This important initiative was spearheaded by Dr. Pachore, whose vision, dedication, and tireless single-handed efforts in developing and launching the registry application deserve special recognition and commendation.

A conscious effort was made throughout the meeting to maximise audience engagement. The programme featured extensive panel discussions, case-based learning, and broad faculty representation while limiting the number of traditional keynote lectures. This format was widely appreciated and encouraged meaningful interaction between faculty and delegates.

The conference also marked a significant milestone in the growth of the society. The ISHKS Membership Drive resulted in the addition of more than 150 new members, reflecting the expanding reach and increasing strength of the organisation. Simultaneously, the AAHKS membership initiative, supported by its leadership present at the conference, successfully enrolled over 30 new members from India, making India the largest contributor to AAHKS international membership. This achievement further strengthened the academic relationship between ISHKS and AAHKS and underscored the growing global presence of Indian arthroplasty surgeons.

The scientific programme was further enriched by the participation of an outstanding international faculty. We were privileged to welcome Prof. William Maloney, Prof. Rafael (Rafa) Sierra, Prof. Javad Parvizi, Prof. Sebastien Lustig, and Prof. Allan Gross, whose expertise, experience, and willingness to engage with delegates significantly enhanced the academic quality of the meeting.

The success of ISHKS 2026 was made possible through the unwavering support of many individuals. As the Local Organising Secretary, I am deeply grateful to our President, Dr. HPC Kincha, for his guidance and leadership. Special thanks are due to Dr. Pachore, Dr. Deepak Dave, and Dr. Krishnakiran for their tremendous contribution in designing and delivering an outstanding scientific programme.

I would also like to acknowledge the extraordinary efforts of the local organising team. Dr. Parag Sancheti and Dr. Hemant Wakankar were at the forefront of every aspect of planning and execution. A special word of appreciation goes to Dr. Sahil Sanghavi, whose tireless work, attention to detail, and commitment were instrumental in making the meeting a resounding success.

ISHKS 2026 will be remembered not only for its record attendance but also for its innovative format, focused scientific content, successful introduction of new initiatives, launch of the Indian Joint Registry mobile application, strengthened international collaborations, and remarkable membership growth. Above all, it reflected the spirit of collaboration, education, and friendship that defines our society. We hope that the discussions, partnerships, and ideas generated during these three memorable days will continue to inspire innovation and advance arthroplasty practice across India and beyond.

**Dr. Mahesh Kulkarni**  
Local Organising Secretary  
ISHKS 2026, Pune

## Indian Joint Registry (IJR) - April 2026 Update

### Turn of a New Tide: The Indian Joint Registry (IJR)

Update by Dr Pachore & Dr Vaibhav Bagaria.

The Indian Joint Registry (IJR) continues to strengthen its role as a vital platform for understanding the evolving landscape of hip and knee arthroplasty in India. The latest analysis, incorporating data up to April 2026, reflects not only growing participation across the country but also the increasing ability of the registry to generate meaningful clinical insights, monitor implant trends, and contribute toward patient safety and evidence-based practice.

The Indian Joint Registry (IJR) continues to strengthen its role as a vital platform for understanding the evolving landscape of hip and knee arthroplasty in India. The latest analysis, incorporating data up to April 2026, reflects not only growing participation across the country but also the increasing ability of the registry to generate meaningful clinical insights, monitor implant trends, and contribute toward patient safety and evidence-based practice.

### Key Highlights

- 384,484+ procedures recorded: Including primary and revision hip and knee arthroplasties up to April 2026.
- Knee arthroplasty remains dominant: Nearly 95% of registry entries are knee procedures.
- Wide national participation: Contributions received from 22 states, 491 hospitals, and 1000+ registered surgeons.
- Leading contributing states: Gujarat, Telangana, and Maharashtra continue to contribute the highest procedural volumes.
- Large-scale TKA dataset: More than 351,000 primary knee arthroplasties recorded.
- Revision burden becoming clearer: Nearly 4,000 revision knee arthroplasties and over 2,100 revision hip arthroplasties documented.
- Evolving implant trends: Changing trends observed in implant fixation, femoral head sizes, constraint usage, and patella resurfacing.
- Unique Indian insights emerging: The registry has enabled identification of uncommon but clinically important observations, including arthroplasty in skeletally immature patients.
- Growing role in patient safety: Registry-linked implant tracking may support early identification of implant-related concerns and long-term outcome monitoring.
- Future-ready initiatives underway: Integration with ABDM, regulatory collaboration, and future AI-driven analytics are being explored.
- Mobile Application: To make data entry easy and friendly IJR is coming up with a user-friendly mobile app to register the data.

*The continued success of the IJR ultimately depends on collective participation. Every entered case contributes not only to national data, but also to deeper understanding, safer arthroplasty practice, and stronger evidence generation for the future of Indian joint replacement surgery.*

## Indian Journal of Hip & Knee Arthroplasty

The Indian Journal of Hip and Knee Arthroplasty is the flagship publication of the ISHKS launched in 2025. Helmed by Dr Murali Poduval, a seasoned editor as Editor in chief, the journal features an elite editorial board both national and international, each an expert in this evolving and multifaceted speciality of Hip and Knee arthroplasty. The journal is being published by Wolters Klowers and is free to read online. The focus of the journal remains Hip and Knee arthroplasty and related fields and research and therein it is one of the few peer reviewed publications in the field. We aim to take this journal driven by quality to the international arena. All articles are double blind peer reviewed and once accepted are published ahead of print on the journal webpage.

We follow standard formats on reporting and article styles. INstructions for authors and an intuitive submission interface are available on the submission site.

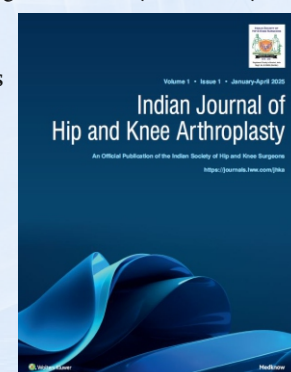

It is noteworthy that this journal, in lines with the ethos and principles of the ISHKS, features no publication charges and is fully funded by the ISHKS and is also fully open access. Current indexing information is available on the website.

We welcome you to contribute original research reviews, case reports, surgical techniques and case series to this novel initiative and be part of the growth of a wonderful new addition to the world of arthroplasty publishing.

Please access all issues, current issue and submission information at <https://journals.lww.com/jhka/pages/default.aspx>

Best wishes

**Murali Poduval,**

#### ISHKS Fellowship

ISHKS offers one of the most comprehensive training programs in Arthroplasty in India. Successful completion will make one confident in doing primary arthroplasty and open the floodgates of opportunities. Unlike one day courses, here one would learn basic principles governing various techniques, making one confident in selecting the technique most suitable in a given situation. The faculty consists of top-ranking Arthroplasty surgeons across the country. The purpose of the course is to create a generation of future Arthroplasty surgeons who will be adept at handling the increasingly complicated scenarios we are likely to see in the future. To apply please visit [www.ishks.com](http://www.ishks.com)
